

PE800X30 - Drop up to 3,4m lifting capacity 40Kg - 60/80Kg with top special bracket - 200/240Vac SP supply

PE800X40 - Drop up to 4,1m lifting capacity 40Kg - 60/80Kg with top special bracket - 200/240Vac SP supply

PE800X50 - Drop up to 5,3m lifting capacity 40Kg - 60/80Kg with top special bracket - 200/240Vac SP supply

PE800X60 - Drop up to 6,1m lifting capacity 40Kg - 60/80Kg with top special bracket - 200/240Vac SP supply

PE800X75 - Drop up to 7,6m lifting capacity 40Kg - 60/80Kg with top special bracket - 200/240Vac SP supply

PE800X85 - Drop up to 8,5m lifting capacity 40Kg - 60/80Kg with top special bracket - 200/240Vac SP supply

X-FLY80 Motorized pantographs are ideally suited for use in TV Studios, Theatre, Auditorium, and other application with ceilings up to 10 metres high. In combination with the FLY TRACK SYSTEM T8 and the relevant manual or motorized carriages it is the perfect solution to provide accurate positioning of lights. Supplied as standard with variable speed drive unit offer uncomparable soft up/down movement, no dynamic shock will influence the attached light or any other equipment you will need to lift. The in built LEDS Status monitor offer a clear understanding of different Pantograph status.

TEYCORIG are pleased to introduce the new X-FLY80 series of Motorized pantographs. Made in aluminium, our new pantographs cover drops of up to 8,5 metres and take up to 40 kilos of load as standard, and up to 60/80 kilos when used with a specially designed upper attachment accessory, (PA862).

Brand new, compact aluminium transmission group with integrate variable speed drive unit for soft start and soft stop.

Irreversible compact worm gear box with 0,25Kw motor.

Power supply input single phase from 200 to 240Vac, to make easy the supply of the unit using existing single phase power distribution, no needs to arrange a dedicated 3 phase power distribution.

New drum winding system, with accurate cable router to avoid rope cross winding, and additional user-adjustable mechanical end stop.

New color coded End stop group with cams adjustable top and bottom limit plus extra limits; adjustable overload device (factory preset); adjustable underload devices one for each rope (factory preset).

New aluminium pantograph arms, with a torsion-resistant oval-shaped profile and a stabilizing bushing pin assembly, guarantee exceptional stability and smooth movement.

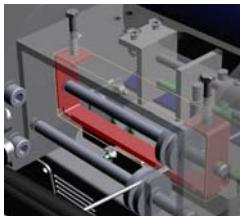

New stabilization system with double guides, made entirely from steel, with precision-engineered bushing pin assemblies.

New cable equalizer, made from steel, with self-stabilizing trapezoid profile.

New bottom bushing for lights attachment available standard (29mm) or universal (29mm plus 16mm male or female spigot or bushing, and anti-loosening knob devices.

Detail on adjustable overload devices

Detail on adjustable underload devices, (one for each ropes)

Detail on new color coded endstop group device with LEDS status Monitor, and unique and smart PUSH TO SET FUNCTION to make easy the end stops setup.

Optional Circuits are available on request 16/20/32A with CE/IEC309/UL-NEMA /DMX/ETH/Plugs and Sockets, single or double circuit plus DMX/ETH

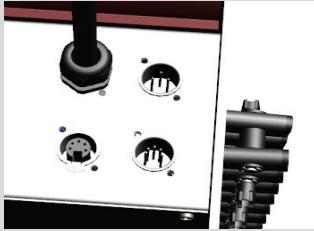

Designed to meet DIN/EN 15560/46 and BGVC1 standard

Detail on top gear group Front and Back side, with LEDS Status Monitor, Color Coded End Stop Group, Motor Inverter Unit, underload devices and scissor guide with 28mm standard spigot.

Detail for top special bracket (PA862) to be installed on request to get 60 (80Kg lifting capacity

Detail for:

- Power input: 200/240Vac single phase+PE
- Control Input: 24Vdc on XLR3 connector
- PIN 1: +24Vdc max 50mA to remote ctrl
- PIN 2: input Terminal 4 up/down
- PIN 3: input Terminal 5 up/down
- Conn. GND: GND to remote control
- Optional: DMX/RS485/CAN/ETH Dig. Ctrl.

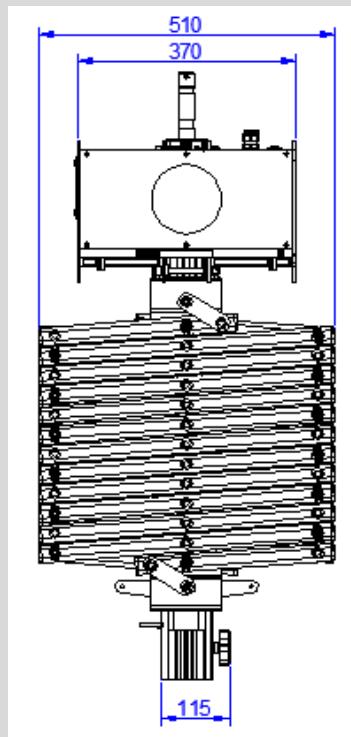

Detail on OPTIONAL PO Switch Cup for local or PO up/down operation (PA870)

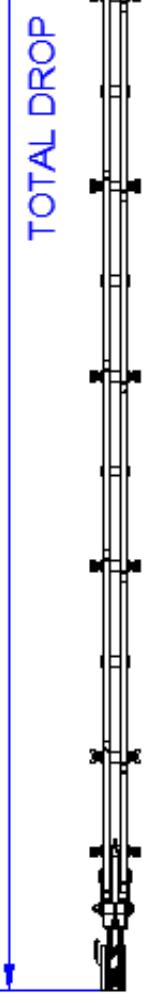

Detail on bottom scissors guide with ropes stabilizer device on trapezoid profile, socket plate with multi holes supplied as standard, bottom 29mm bushing available as standard or with universal 16/29mm bushing and 16mm spigot

Built according CE/UL regulation, and safety standards EN954.1 - EN 60439-1
CWA 15902- EN15560/46- BGV-C1
